EXPERIENCE

BOOTCAMP FULL-STACK DEVELOPMENT

fACTORIA March 2021 - 22 septiembre 2021

MOODS

Moods es un proyecto que creado por el grupo de desarrollo FATAAA, en conjunto con la fundacion Nous Cims. Desarrollando así, un juego de trivias, que busca tratar la adicción a las pantallas en los jóvenes de edad escolar. Se basa en una novela policial que a través de preguntas logra que los usuarios generen debates para poder descubrir quien es el "impostor" dentro de su grupo y que finalidad tienen los videojuegos para generar una dependencia/adicción, así generar más consumo y rentabilidad. Technologies: HTML, CSS, Bootstrap, . PHP/Laravel, Mysql, GitHub, Figma

DOGGYF APP

community of dog owners and walkers, users can post ads and contact other users to proceed in the exchange. This was essential for me to learn vue.js+laravel restful Api with token and testing in backend

TECHMANAGER APP

Web App where users can suscrib to courses and admins can create them. I learned MVC model. Tech stack: Laravel, PHP, MySQL

WHEEL OF DOOM

Small application game to randomly choose people. This helped to boost my knowledge on Javascript and CSS.

Tech stack: Javascript, CSS, HTML

SHOP GLASSES

glasses online. It consists of a main page with a category selector, and a technical sheet that describes the product depending on the selection made.

Tech stack: Javascript, CSS, HTML
